

How Your Pet Builds Strong Collagen

How Your Pet Builds Strong Collagen

✓ Digestive Capacity

HCl and pepsin to break everything down properly.

The Collagen Building Formula

✓ **Protein + HCl/Pepsin**
Building blocks, digestion

✓ **Vitamin C**
Critical cofactor in synthesis

✓ **Essential Minerals**
Iron, Copper, Zinc, Manganese
enzyme activators

✓ **Proper Fibroblast Activation**
Cells that produce collagen need
signaling factors and a humectant
environment.

 **Strong Collagen
& Joint Health**

*Healthy collagen = stronger joints, resilient skin,
and a more comfortable, active pet.*
